

# PBC WiFi Acceptable Use Policy

Ver 1.0

Parkdale Baptist Church located at 514 Sidney St. Belleville, Ontario herein referred to as "Church", and the person requesting access, herein referred to as "User".

The church has established a policy with regard to WiFi access and usage, the church provides this wireless network principally for the use of staff and volunteers to help achieve the church's ministries objectives. Your access to the Service is completely at the discretion of the church, and your access to the Service may be blocked, suspended, or terminated at any time for any reason including, but not limited to, violation of this Agreement, actions that may lead to liability for the church, disruption of access to other Users or networks, and violation of applicable laws or regulations. The church may revise this Agreement at any time. You must accept this AUP each time you use the Service and it is your responsibility to review them for any changes each time.

The use of the Service for the following activities is prohibited:

Send or otherwise make available to others any material that is offensive, obscene or indecent, or infringes the copyright of another person (for example, MP3 or other audio or video formats).

Do not make available by any means (web server, FTP server or file-sharing software such as KaZaa, Gnutella, Morpheus, etc.) any material unless you are the copyright holder of that material, or have a licence to make that material available, or the material has been expressly put into the public domain and you can demonstrate this.

Cause annoyance, inconvenience or anxiety to others. Examples would include abusive or offensive Emails.

Access, or attempt to gain access to, computer systems, data or resources to which you are not authorised. Only use those resources that you have permission to access.

Provide network services (such as DNS, DHCP, Bootp or other such services that may interfere with the normal running of the network).

Provide access to other users (for example by connecting a hub or modem to a wifi-networked PC, or by passing on your username and password to a third party).

Access network services in such a way as to deny reasonable access to the network for other users, for example, by excessive use of network bandwidth. This could include the use of personal web or FTP servers, or file-sharing software

## Records & Monitoring

Everything that is done using the WiFi network may be recorded and stored. These records (of web sites visited, files transferred, emails sent, etc.) are not actively monitored, but if any misuse is suspected, they may be checked to find out exactly what any user was using the network for at any given time. If you keep within the acceptable use guidelines specified above, your records will never be looked at.
